DETAILED ACTION

This is a response to the amendment filed 6/18/2008. Claims 1 and 3-16 are under examination.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7, 11 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Brambilla et al. (USP 5,828,245), newly cited prior art.

Figure 1 of Brambilla et al. shows a transmitter for a controlled shape switched signal (Vout) on a communication line comprising signal generator means including capacitor means (C) and signal producing means (16, 12) responsive to a capacitor voltage across said capacitor means for applying said switched signal to said line, and charging means (1c, 1d, 22) responsive to an input signal (command) for supplying positive and negative charging current (Ic and Id) to said capacitor means so as to define rising and falling edges of said switched signal, wherein said charging means comprises feedback loop means 16, 22) responsive to said capacitor voltage for generating a feedback current and said charging current with continuous that are progressive function so said capacitor voltage is a continuous function of time (Vcap is continuous function of time) as called for in claim 7.

Regarding claim 11, Vcap is a half sinusoidal like waveform.

Regarding claim 15, said charging means (22) comprises resistive means (22B) receiving a voltage that is function of said capacitor voltage (Vcap) for generating feedback current (LT).

Allowable Subject Matter

3. Claims 1, 3-6, 8-10, 12-14 and 16 are presently allowed.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
